

ATTENDANCE POLICY

Regular attendance is a *must* to achieve increased endurance and a sense of well being. Insurance companies can deny claims if the patient does not consistently participate in the Pulmonary Rehab program.

We understand, on occasion, patients have schedule conflicts or are too sick to keep their exercise appointment. However, it is very important that you contact us at 810-342-5370 to let us know whenever you will be absent so we can document the reason for your absence.

Patients are expected to attend the group education class held once a month. These classes are mandated by Medicare and necessary for us to maintain our nationally recognized certification.

Patients that have missed 4 consecutive appointments without contacting Pulmonary Rehab Staff will be discharged from the program.

Re-entry into the program will require another referral from your Doctor.

Patient Signature

**Lung patients have sensitivities to
strong odors and perfumes.
We request that patients and their guests
refrain from wearing perfumes, etc.
while participating in
Pulmonary Rehabilitation.**

Thank you for your cooperation.
