 Misc Info: ds; color; bleed front; 80# cover

**WHAT IS DIABETES?**

Diabetes is a chronic disease that occurs when the body is unable to produce enough insulin or to use insulin in an effective manner. Insulin is a hormone secreted by the pancreas that converts sugars and starches into energy.

Today, people with diabetes can live full, active lives. By understanding the disease and knowing how to keep it under control, individuals with diabetes are working in every trade, occupation and profession, raising families, and running households.

But such success requires effort. That's why McLaren Flint's Diabetes Educators offer a Diabetes Self Management Education Program which provides instruction, guidance and ongoing assistance through a series of classes on living with diabetes.

**GROUP CLASSES**

The program is a series of three classes, held Wednesday and Thursdays at McLaren's Flint Family Practice building at G3200 Beecher Road in Flint.

**INDIVIDUAL INSTRUCTION**

Individual instruction is available with registered nurse or registered dietitian.

**FAMILY PARTICIPATION**

Family members or others close to you are encouraged to participate. Whether in the group or individual classes your family can understand the disease and provide support for you and your treatment program too.

**THE DIABETES TEAM**

Our team consists of a registered nurse, registered dietitian, and a pharmacist.

Call (810) 342-5506 for more information or to register.
