**Spec Info:**

You will also receive a call from a registered nurse in the surgery unit prior to your scheduled surgery date. If you are taking any medications, contact medications, past surgeries and hospitalizations, medical history, and physicians. Please have this information ready to review during the phone call.

The nurse will review all of the instructions you need to follow on the date of surgery such as what time to be here and when to stop eating and drinking. To prevent any delays or cancellations, it is important to follow these directions. The nurse may ask you to come to the hospital a few days before your surgery to complete lab work. This helps to keep everything going smoothly on the day of your surgery and prevents unexpected cancellation of your surgery.

If you need to reach the pre-operative department, please call (313) 875-2475 for Greenlee procedures or (313) 875-3025 for Pennsylvania procedures.
