Telephone: (586) 493-8000

Dear Patient,

Thank you for choosing the Family Birthing Center at McLaren Macomb to welcome the newest addition to your family. Our healthcare team is dedicated to providing the best care for you or your family member.

The Family Birthing Center embraces a caring culture that is open and committed to supporting the needs of our patients and families. Our team of compassionate experts adheres to the highest treatment standards and provides respect and dignity to each patient. The best interest of our patients is most important, and we want both patients and families to be fully engaged in the birthing process. The Patient and Family Centered Care Program is a new approach to the planning, delivery and coordination of health care and is based on partnerships among health care providers, patients and families.

Upon admission to the hospital, one family member will be asked to identify themselves as the patient's Care Partner. The Care Partner will be given a special wristband that will identify them as the designated Care Partner and allow 24 hour access to the patient.

The Care Partner will act as the spokesperson for the patient and will be invited to speak with the physician team as the patient's representative. The Care Partner will be responsible for sharing and updating patient information from the physicians to other family members and/or visitors. The Care Partner will be responsible for communicating valuable patient information to the physicians and staff at McLaren Macomb and will also be the primary contact in the event that consent needs to be obtained for a procedure or in the event of an emergency.

The Patient and Family Centered Care program at McLaren Macomb allows you to be an important partner with our health care team when caring for your loved one. If you have any questions, please do not hesitate to contact one of the members of our team.

Spec Info:

Sincerely,
The Family Birthing Center
