DEDICATED TO QUALITY

McLaren Medical Laboratory focuses on maintaining a state of continuous quality improvement in all testing processes and services that impact patient care. Lean practices and state-of-the-art instrumentation support our laboratory in providing accurate, expedited test results while decreasing unnecessary follow-up testing and redraws.

By eliminating redundant laboratory instruments and resources, we also pass along significant cost savings to those we serve.

For more information, or if you are a health care organization interested in our testing services, please contact Tailer Przybylowicz, Business Development Specialist, at (810) 394-5704, tollfree at (855) 769-7030, or visit our website at mclaren.org/lab.
