What our team offers

When an athlete experiences a sports-related injury, time plays a key role in recovery. Our highly skilled comprehensive team consists of:

- Orthopedics
- Cardiology
- Neurology
- Neuropsychology
- Physical Medicine and Rehabilitation
- Pulmonology
- Vascular and General Surgery
- Primary Care
- Emergency Medicine

Our rehabilitation staff is trained and experienced in treating a variety of conditions and injuries including:

- Sprains / Strains
- Dislocations
- Fractures
- Contusions
- Repetitive or overuse Injuries
- Arthritis
- Surgical rehabilitation
- Neurological injuries

Injury prevention and performance enhancement programs can be created for individuals or groups as part of our program. An onsite video analysis of sports performance using state-of-the-art software technology is also available.

To begin treatment at one of our facilities, you will need to obtain a prescription from your physician. Then, simply contact one of our facilities to schedule your one-on-one individualized assessment.

The Athletic Medicine Institute specializes in the treatment of sports-related injuries. Patients in our program can expect to receive quality care for the prevention and rehabilitation of musculoskeletal and neurological injuries for athletes of all ages and abilities.

Our experienced and dedicated staff will work with you to help restore your function and return you to your prior level of activity. Our staff includes expert physicians and therapists with speciality training in their area of expertise.

For emergency and trauma care, choose Macomb County's only verified trauma center, McLaren Macomb. Our experienced team is prepared to treat virtually any illness or injury, and works closely with all McLaren Macomb Athletic Medicine Institute physicians to ensure the continuity of care for all patients.
