McLaren Central Michigan  
McLaren Clarkston  
McLaren Flint  
McLaren Lapeer Region  
McLaren Macomb  
McLaren Northern Michigan  
McLaren Oakland  
McLaren Port Huron

In the event of a stroke, getting the right treatment fast makes all the difference. The McLaren Stroke Network is the only program in the country where every stroke patient is seen by a stroke-trained interventional neurologist in minutes...anytime of the day or night. These highly skilled doctors utilize TeleStroke technology to work with a multidisciplinary team to provide comprehensive diagnoses and treatments, assuring the highest level of care for stroke patients, 24/7. That's important because time lost can be brain lost, and brain lost can mean disability and quality of life lost.

McLaren Stroke Network—your expert team for treating stroke, aneurysm and many other neurological issues. To learn more, visit [mclaren.org/stroke](http://mclaren.org/stroke).
