OAKLAND

DOING WHAT'S BEST.®

mclaren.org/oakland

We commit to an inclusive and equitable environment where everyone is valued and empowered for success. Our environment reflects the communities we serve, learns from all perspectives, delivers culturally appropriate care, and provides the best value in health care as defined by quality outcomes and cost.

OUR PHARMACY RESIDENCY

McLaren Oakland is a 328-bed medical center that provides primary and specialty healthcare services to the greater Pontiac and Oakland County community. Founded in 1953, McLaren Oakland has grown into a comprehensive medical community that includes outpatient facilities in Clarkston and Oxford, oncology infusion centers in Clarkston, Mt. Clemens and Lapeer, in addition to an inpatient hospital in Pontiac providing a range of clinical services including emergency and trauma care, cardiology, cancer services, minimally invasive robotic surgery, and orthopedic services. With a network of more than 300 physicians, McLaren Oakland owns a network of employed physician offices throughout Oakland County and a nursing home in Lake Orion. McLaren Oakland is a Level II verified trauma center.

RESIDENCY PROGRAM PURPOSE

The PGY-1 pharmacy residency program builds on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY-2) pharmacy residency training.

WHY CHOOSE McLAREN OAKLAND

Residents at McLaren Oakland will enhance their knowledge and skill sets by participating in required and elective rotations. Residents will participate in all pharmacy clinical services, including multidisciplinary rounding, pharmacokinetic and anticoagulation dosing services, dispensing, provision of drug information, and precepting pharmacy students.

Our residents develop skills to become well-rounded practitioners and provide medication-related care to a wide variety of patient populations. Upon graduation, our residents are self-directed learners possessing clinical expertise and leadership skills, able to practice in diverse patient care settings and are well prepared for a career in pharmacy.
