# CANCER SERVICES

## Comprehensive oncology services

We offer cancer patients comprehensive oncology care, including advanced medical, radiological, and surgical oncology services. Not only are our facilities equipped with state-of-the-art technologies, we're proud to offer a talented team of cancer specialists and unprecedented partnerships with cutting-edge research universities and the leading cancer care research and provider network in the state, Barbara Ann Karmanos Cancer Institute.

### Our services:

**Karmanos Cancer Institute at McLaren Greater Lansing** is a full-service, community-based outpatient cancer care facility bringing the highest standards in medical oncology to the region. The board-certified oncologists and hematologists and highly trained staff treat all types of cancers and blood disorders, in addition to providing outpatient chemotherapy and infusion services on site, as well as offering clinical trials.  
**(517) 272-1950**

**Karmanos Cancer Institute at McLaren Greater Lansing, Mid-Michigan Physicians** is a Quality Oncology Practice Initiative award-winning cancer care provider, recognized for excellence in quality cancer care.  
**(517) 913-3890**

**Breslin Cancer Center** is a partnership between McLaren Greater Lansing and Michigan State University, and is home to MSU's medical oncology services, including an outpatient chemotherapy/ infusion center and hematologists who are highly skilled and trained in diagnosing and treating all types of cancer.  
**(517) 975-9500**

**Radiation oncology** provides sophisticated radiation therapy technology and treatment planning for a wide range of cancers. McLaren Greater Lansing radiation oncology works closely with Karmanos Cancer Institute at McLaren Greater Lansing to ensure our patients receive the best care and treatment possible.  
**(517) 975-7800**

**McLaren Greater Lansing's Breast Care Center** is the first and longest-running mid-Michigan hospital to receive national accreditation for its breast care program by the National Accreditation Program for Breast Centers (NAPBC) from the American College of Surgeons.  
**(517) 975-6425**

**McLaren Lung Cancer Institute** provides medical, radiological, and surgical oncology treatments for cancers of the thorax, as well as a patient navigator program that helps coordinate all facets of care.  
**(517) 975-8030**

**Support groups** are available through McLaren Greater Lansing. These programs are designed to offer cancer patients and their family members opportunities to share common experiences in a comfortable environment.  
**(517) 975-7814**

### Close. Convenient. Comprehensive.

There's no need to look beyond McLaren Greater Lansing for your oncology care needs. We provide the most sophisticated treatments and technologies, right at your fingertips. And, you can rest assured that we will give you the personalized, compassionate care that you deserve. While we are very focused on your cancer and your cure, we never lose sight of what is most important—you.
