The Karmanos Cancer Institute at McLaren Greater Lansing

Partnership for Advanced Cancer Care

McLaren Health Care operates the state's largest network of cancer centers and providers, anchored by Karmanos Cancer Institute.

Cancer patients in mid-Michigan can expect world class treatment from Karmanos Cancer Institute at McLaren Greater Lansing.

Karmanos was named in memory of Barbara Ann Karmanos, who passed away at age 46, after an eight year battle with breast cancer. To honor her courage, her husband Pete Karmanos, Jr., wanted to ensure that the best cancer care is available to other families.

Features of Karmanos Cancer Institute include:

- One of only 41 National Cancer Institute-designated Comprehensive Cancer Centers in the United States.
- Karmanos Cancer Institute cares for approximately 12,000 new patients annually.
- Its long term partnership with Wayne State University School of Medicine enhances the collaboration of critical research and academics related to cancer care.

Karmanos Cancer Institute's integration into McLaren Greater Lansing is having an immediate, significant and long-lasting impact for cancer patients in Mid-Michigan, including:

- Karmanos patients have increased access to advanced cancer care and clinical trials.
- Cancer doctors, whether based in Detroit or communities served by McLaren Health Care, that meet the same high-quality standards of performance measurement and evidence-based practice. Patients can be assured that they will receive the very best care and most up-to-date treatment found anywhere.
- Opportunities to expand education and research programs.
- Karmanos Proton Therapy Center in Flint, the first to bring cutting-edge proton radiation therapy to Michigan, will be the most advanced center of its kind in the United States.

OTHER CANCER SERVICES IN LANSING

McLaren Greater Lansing has a long tradition of offering comprehensive care to patients with cancer, including advanced medical, radiological and surgical oncology services. Our facilities are equipped with state-of-the-art technology, and we maintain a talented team of specialists who customize care to meet each patient's needs.

Additional features of the oncology program in Lansing include:

- McLaren Greater Lansing is the first and longest running mid-Michigan hospital to receive national accreditation for its breast care program by the National Accreditation Program for Breast Centers (NAPBC) from the American College of Surgeons.
- The Lung Cancer Institute offers a multidisciplinary approach to advanced medical, radiological and surgical oncology treatments, and a patient navigator program to reduce the "door to therapy" time and empower people diagnosed with cancer to tackle the disease.
- Radiation Oncology Alliance leverages powerful partnerships between McLaren Greater Lansing, Michigan State University and the University of Michigan, to provide sophisticated radiation therapy.
