

## ACCREDITATIONS

McLaren Macomb Diagnostic Imaging holds all required federal and state licenses and significant certifications and accreditations from national review organizations. Patients can be assured that each imaging center maintains the highest standard of care, treatment and patient safety.

For a more detailed list of all diagnostic services available, please visit [mclaren.org/macombimaging](http://mclaren.org/macombimaging).

## HOW TO PREPARE FOR YOUR DIAGNOSTIC TEST

Preparing for diagnostic testing is important. Each type of imaging exam and diagnostic procedure has its own specific guidelines. Specific instructions for your exam will be given at the time of scheduling. The following guidelines apply to all exams:

- Discuss any special needs or physical limitations prior to your test
- Wear loose, comfortable clothing without metal buttons, zippers or straps
- Arrive 15 minutes early to verify your registration information

## WHAT TO BRING

- Prior X-rays or scans, if you are instructed to do so
- Physician referral
- Current medical insurance card(s)
- Driver's license or other government issued identification

## ABOUT APPOINTMENTS

Most tests are scheduled within 48 hours. We accommodate patients who require urgent testing.

## INSURANCE

McLaren Macomb accepts most major insurance providers.

# McLAREN MACOMB DIAGNOSTIC IMAGING

## ABOUT McLAREN MACOMB DIAGNOSTIC IMAGING

McLaren Macomb Diagnostic Imaging offers a comprehensive array of diagnostic imaging services featuring advanced imaging technology that is subject to stringent regulatory standards. Our highly skilled radiologists and technologists work together with each patient's primary care physician to coordinate the highest standard of care.

McLaren Macomb utilizes the latest in imaging technology to minimize radiation exposure while maintaining the highest-quality images.

To ensure our equipment meets all safety standards, especially those that produce ionizing radiation, machines are inspected regularly.

### SERVICES

- General X-ray
- Ultrasound, including OB and Vascular
- Computed Tomography Scan (CT Scan)
- Magnetic Resonance Imaging (MRI)
- Positron Emission Tomography (PET)
- Diagnostic Coronary CT Angiography
- Nuclear Medicine
- Diagnostic Breast Imaging  
3D and Digital Mammography
- Interventional Radiology  
Angiography, CT Guided Biopsy  
Ultrasound Guided Biopsy
