REHABILITATION AND THERAPY SERVICES

Phone (586) 591-1420

Treating a wide variety of orthopedic and neurological conditions, our rehabilitation team consists of experienced and knowledgeable physical, occupational and speech therapists who work with patients to develop individualized programs. A physician referral is required.

Advanced therapies include:

- Physical
- Occupational
- Neurological
- Urinary Incontinence
- Sports Medicine

McLAREN CARDIOVASCULAR INSTITUTE

Phone (586) 464-4010

Our board-certified cardiologists are trained in the latest procedures, diagnosis and treatment of various cardiac conditions and diseases, including irregular heart rhythm, heart attack and congestive heart failure. Patients that are experiencing a cardiac condition or need evaluation are encouraged to make an appointment.

LABORATORY SERVICES

Phone (586) 430-4022

The outpatient laboratory is committed to offering the highest level of care and patient satisfaction. Our licensed laboratory provides testing for all ages. Results are typically faxed to physicians within 24 hours. No appointment is needed, but a physician referral is required.

DIAGNOSTIC IMAGING SERVICES

Phone (586) 430-4020

Convenient access to imaging services that utilize advanced technology. Our highly skilled board-certified radiologists analyze all images to support early detection, diagnosis and treatment. In most cases we are able to schedule an imaging appointment within 48 hours and can accommodate patients who require urgent testing. Reports are faxed to the primary care physician within 24–48 hours and critical results are reported immediately. A physician referral is required for all diagnostic testing.

Appointments required for:

- Bone Density
- Digital Screening Mammography
- Ultrasound, including OB and Vascular
- CT Scan
- X-ray (No appointment needed)

NORTH MACOMB MEDICAL ASSOCIATES

Phone (586) 727-5840

Our physicians are board-certified in family medicine and treat patients of all ages. We provide care that is patient-centered, comprehensive, coordinated and accessible. Our primary care physicians treat illnesses, injuries, perform annual exams and diagnose and manage chronic conditions. Same-day appointments are available.
