

MEDICAL LABORATORY SERVICES

McLaren Macomb Medical Laboratory Services provide accurate, timely and convenient diagnostic services, including:

- Full-service, state-of-the-art laboratory
- Comprehensive clinical and anatomical pathology
- Microbiology testing
- Outpatient testing
- Non-urgent inpatient testing
- STAT testing for inpatient treatment decisions
- Full-service blood bank
- Surgical pathology services

In addition, McLaren Macomb Medical Laboratory Services offers routine lab tests most often requested by a referring physician. Patients may have specimens collected on site. Accurate, prompt results are provided, enabling physicians to make a timely diagnosis.

TEST PREPARATION

Certain lab tests require special preparation, such as fasting, avoidance of certain foods or refraining from the use of tobacco products. Call the lab for more information regarding test preparation requirements.

TEST RESULTS

McLaren Macomb Medical Laboratory sends patient lab results directly to the referring physician.

Patients may request a copy of their test results from the McLaren Macomb Health Information Management department at (586) 493-8400.

REFERRAL REQUIREMENTS

Patient must provide a prescription from the referring physician for all lab tests.

BILLING AND INSURANCE

McLaren Macomb accepts most major insurance providers.
