

WHAT IS THE MULTI-SPECIALTY CLINIC?

The Multi-Specialty Clinic is a unique approach to health care and graduate medical education in our community.

Designed to make it easier for patients and their families to access medical services in the Lansing community, the clinic serves as a valuable health care resource, offering high-quality clinical care across several medical disciplines, including internal medicine and obstetrics and gynecology.

INTERNAL MEDICINE SERVICES

Specializing in the health care and treatment of adults, our residents trained in internal medicine are highly skilled in the prevention, diagnosis and treatment of disease or illness.

An internal medicine physician is trained in the careful application of scientific and clinical expertise to provide better outcomes for the adult patient.

If you're seeking a new primary care doctor to help you manage your health needs, the Multi-Specialty Clinic is accepting new patients and bring compassionate health care to Lansing.

EXPERT PHYSICIANS WHO ARE HERE TO CARE FOR YOU

The Multi-Specialty Clinic maintains McLaren Greater Lansing's long standing commitment as the largest teaching program in mid-Michigan. By partnering seasoned attending physicians in our community with newly graduated physicians (residents and fellows) we are able to provide affordable, high-quality clinical care to our patients while ensuring the availability of future generations of expertly trained physicians for our community.

Health care services available through the Multi-Specialty Clinic include:

- Internal Medicine
- Obstetrics and Gynecology
- Laboratory services

OBSTETRICS AND GYNECOLOGY

Every woman is unique and our skilled and caring residents who specialize in women's health at the multi-specialty clinic understand this and are here to provide a range of services specific to a woman's health needs.

These doctor's have been trained in both obstetrics and gynecology and specialize in the specific medical needs of the female reproductive system.

Whether it's for the diagnosis of gynecological disorders such as bladder control problems, menstrual pain and pelvic organ prolapse, access to birth control for pregnancy prevention, or you are expecting and needing pregnancy care, our expertly trained residents are here for you.
