WHAT HAPPENS DURING THE TELEHEALTH VISIT?
A telehealth visit will start like any other visit. You will be checked in and a staff person will bring you to an exam room and start the visit. After the staff person talks to you, he or she will connect you with a provider at our other site. You will be able to see, hear, and talk to the provider through a secure video feed. Following your visit, a staff member will escort you to check out.

HOW DO I PREPARE FOR A TELEHEALTH VISIT?
You can help get the best from your telehealth visit by following these simple steps:

- arrive at least 15 minutes early to allow for preparation time
- speak clearly so your voice can be picked up by the microphone
- look at the camera so you can achieve good eye contact with the specialist
- if you have a question or need help during the visit, just ask
