The image displays two forms from McLaren FLINT. The left form is the 'Trauma Activation Criteria' which is divided into three levels: Level I, Level II, and Level III. Level I includes criteria for Glasgow Coma Scale (GCS) of 15, vital signs, and mechanism of injury. Level II includes criteria for GCS of 14-15, vital signs, and mechanism of injury. Level III includes criteria for GCS of 13-14, vital signs, and mechanism of injury. The right form is the 'ED Trauma Flow Sheet' which includes a header for patient information, a section for 'Type of Trauma Activation' with checkboxes for Level I, II, and III, and a section for 'Mechanism of Injury' with checkboxes for various injury types. It also includes a section for 'Medical History' and 'Physical Examination'.
