PATIENT RIGHTS AND RESPONSIBILITIES

McLaren Lapeer Region wants you to be a partner in your hospital care. We believe the more you know and the more you participate and talk with your doctors and healthcare team, the more effective and satisfactory your hospital experience will be. The following statements of rights and responsibilities will help you understand what you can expect from us and, in turn, what your responsibilities are as a patient. If at any time you or your advocate need help understanding or enforcing your rights and responsibilities, please talk with your doctor or nurse.

ASSURING ACCESS TO CARE
 You have the right to receive care, including and including necessary care and to not be discriminated against for any reason. You have the right to speak privately with anyone you choose. If you do not speak English at all, hearing, seeing or speech impaired, an interpreter, sign or reader will assist you.

You are responsible for providing full and accurate information about past illnesses, hospital stays, use of medications and other matters related to your health.

UNDERSTANDING YOUR CARE
 You have the right to know the names and titles of everyone who cares for you. You have the right to information about your diagnosis, treatment and possible medical outcomes. We encourage you to talk with your physician and healthcare team about procedures and treatments and their risks and benefits. Except in emergencies or in threatening situations, you must sign a consent form for all major procedures, and you have the right to change your mind and withdraw that permission at any time before the procedure.

You are responsible for asking questions when you do not understand or you are not satisfied with the information or instructions given to you by your physician and healthcare team.

REFUSING TREATMENT
 You have the right to refuse any treatment or medications as permitted by law. Our staff will help you understand the possible medical consequences of your refusal, but we are not responsible for any resulting harm. You have the right to be free from restraints unless it becomes necessary to protect your safety or that of others. Physical restraints will be applied only by trained healthcare professionals who will document the reason in your medical record and promptly call your physician. Medications will be used for the same purpose only under a physician's order.

You are responsible for the consequences of your decisions if you refuse treatment or do not follow the instructions of your physician or healthcare team.

RESOLVING COMPLAINTS
 Each patient has the right to be informed of hospital policies and practices that relate to patient care, treatment and responsibilities. Each patient has the right to be informed of available resources for resolving complaints, conflicts and official issues. Patients unable to protect themselves have the right to have access to protective resources if appropriate.

You are responsible for telling your healthcare team when you are not satisfied with the care or services provided, about the to discuss other issues related to your healthcare, or when you have concerns about possible abuse or neglect in your home.

PROTECTING YOUR PRIVACY AND CONFIDENTIALITY
 You have the right to privacy, and your healthcare team will discuss tests and treatments in such a way as to protect that right. Your medical records will be confidential unless you give permission. In rare instances or in cases of suspected abuse or public health hazards when reporting is permitted or required by law, all other parts of your health information are documented in the Notice of Privacy Practices.

You are responsible for following hospital rules, following instructions in cases of emergencies, and being considerate of and respecting the privacy and rights of other patients and staff.

PLANNING YOUR CARE
