Physicians referring to the McLaren Anticoagulation Clinic will receive experienced, efficient monitoring and management for their patients on anticoagulant medication.

Physicians referring to the McLaren Anticoagulation Clinic will receive experienced, efficient monitoring and management for their patients on anticoagulant medication.

TOP 10 BENEFITS OF THE McLAREN ANTICOAGULATION CLINIC

1. Patients who attend anticoagulation clinic spend more time in therapeutic range than those who do not attend¹
2. Appointment scheduling is quick and easy
3. Service is covered by insurance
4. Average office visit is only 15 minutes (after the initial appointment)
5. Coumadin prescriptions are called to the patient's pharmacy by the clinic
6. INR results and dosage changes are faxed to the ordering physician after each visit
7. Dosage changes are made right away
8. INR blood test results are immediate
9. Testing is a fingerstick only-no painful or time consuming lab draws
10. Patients receive one-on-one care and are managed by staff certified in anticoagulation therapy
