

McLAREN WOUND CARE OFFERS FOCUSED HEALING AND HIGHLY-TRAINED PROVIDERS

This specialized team of doctors, and nurses, is solely dedicated to treating wounds, including many that have resisted healing after months and even years of traditional treatment. McLaren was the first area hospital to offer hyperbaric oxygen therapy and the care team uses only proven, advanced treatment techniques.

The types of wounds treated include:

- Vascular leg ulcers
- Diabetic foot ulcers
- Pressure ulcers
- Surgical or traumatic wounds
- Wounds caused by edema, cancer, radiation treatment, burns, infections and scleroderma.

Our Hyperbaric Oxygen (HBO) Therapy Program has a long history of successfully treating:

- Diabetic wounds
- Complications from radiation therapy
- Chronic bone infections
- Non-healing skin grafts or flaps
- Crush injuries

Studies have shown that hyperbaric oxygen therapy increases an individual's ability to heal wounds. The use of HBO in combination with advanced wound care has been proven to prevent amputations. It's a thoroughly tested, FDA approved, completely safe and painless therapy that has helped thousands of patients heal faster and better than ever before.

McLAREN WOUND CARE PROVIDERS

Mark R. Williams, DPM, has been affiliated with the McLaren Wound Care Center since 2003. Dr. Williams earned his Doctorate of Podiatric Medicine from The Ohio College of Podiatric Medicine (Kent State University) in Cleveland before completing a three-year foot and ankle surgical residency in Houston, Texas. Dr. Williams is board certified by the American Board of Podiatric Surgery and is a Fellow of the American College of Foot & Ankle Surgeons.

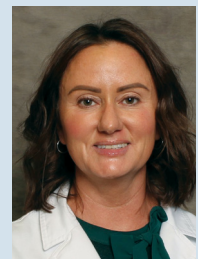

Jessica Macsuga, DPM, grew up in Goodrich, Michigan and graduated from the University of Michigan with a Bachelors of Art and Human Biology. She obtained her Doctor of Podiatric Medicine degree from Temple University's College of Podiatric Medicine and completed a 3 year surgical residency at the Detroit Medical Center where she was Chief Resident. Her training had a high focus on foot

and ankle reconstruction, forefoot and rearfoot elective surgery, trauma, revisional surgery and diabetic limb salvage.

Dr. Macsuga is the current Assistant Director of the Podiatric Medicine and Surgery for the residency program at Ascension Genesys Hospital and is Forefoot and Rearfoot certified by the American Board of Foot and Ankle Surgery.

Stephanie Bordner, RN, MSN, AGNP-C, is a Certified Adult and Geriatric Nurse Practitioner at McLaren Flint Wound Care and Hyperbaric Oxygen Center. Stephanie has over 20 years of experience in the medical field with practice in specialties such as urgent care, emergency observation, oncology and women's health. Stephanie obtained her education from Spring Arbor University and Eastern Michigan University. Stephanie currently specializes in the

assessment and treatment of adult head-to-toe complex wounds, including chronic ulcers, burns, pressure injuries, vascular injuries, diabetic foot wounds, and Hyperbaric Oxygen Therapy (HBOT).
