

Welcome to our Care Coordination Program

It is our intent to provide you with information and resources to help you manage your conditions so that you can improve and maintain the quality of life you desire. In our program, we want to be as accessible to you as possible. We will provide you with an invitation and information to use electronic communication system to communicate if you so choose.

In addition to the electronic communication listed above, you will be assigned a RN Care Coordinator from our Team. The Care Coordinator will reach out to you and provide their personal number, however, if you have questions or concerns at any time, you are welcome to contact our department by calling (844) 368-1817.

If you have a medical emergency, please seek care in the emergency department immediately. For non-emergent needs after-hours please contact the practice for the provider on-call or call (844)-368-1817.

Again, welcome to our program and thank you for allowing us to serve you on your journey to healthy living.
