

Breast Imaging Center

McLaren Greater Lansing and MSU Health Care have partnered to bring a state-of-the-art breast imaging center to the greater Lansing community, located at McLaren's hospital campus. The Breast Imaging Center brings a comprehensive approach to diagnosing breast cancer and streamlining treatment pathways, all in a comforting environment for patients.

At the Breast Imaging Center, you have convenient access to the latest advances in breast imaging technologies with reports that are generated within 24 hours. Those who require breast biopsies are able to schedule within a week of their diagnostic imaging results.

SERVICES INCLUDE:

- Four 2D/3D mammography systems
- Bone density testing
- Ultrasound units with elastography for breast exams
- Ultrasound-guided biopsy
- Pre-surgical breast localization
- Stereotactic core biopsy
- Two breast biopsy systems, including prone and upright
