**PATIENT TRANSFER CONSENT FORM**

**SECTION TO BE COMPLETED BY THE PHYSICIAN**

**A. Patient Condition**  
Does the patient have an emergency medical condition?    Yes    No

Select One:  
 Stable   The patient has been stabilized such that, within reasonable medical probability, no further deterioration of the patient's condition is likely to result from transfer. No other significant facts have been identified as associated with the patient's transfer within 30 minutes.  
 Delivery Not Imminent   Within reasonable medical probability, no further deterioration of the mother or child is likely to result from transfer.  
 Unstable   The patient's condition can not be stabilized prior to transfer.  
 Delivery Imminent   The patient is a pregnant woman having contractions and there is inadequate time to safely transfer her to another hospital before delivery or another may pose a threat to the health or safety of the woman or her unborn child.

**TO BE COMPLETED WHEN TRANSFERRING AN UNSTABLE PATIENT**

The patient's emergency medical condition has not been stabilized. I have explained to the patient/legal representative the risks and benefits of transfer and medical treatment at the receiving facility.  
 I certify that based on the receiving risks and benefits to the patient, and based on information available at the time of the patient's examination, the medical benefits reasonably expected from the provision of appropriate medical treatment at another facility outweigh the increased risks, if any, to the patient's medical condition from affecting transfer.  
 I am unable to certify that the increased risks to the patient from affecting transfer are outweighed by the reasonable expected medical benefits of appropriate treatment at the receiving facility.
