PORT HURON

TEEN VOLUNTEER OPPORTUNITIES

The teen volunteer program is geared toward young people 14 years and older. This program is often the first exposure many of the participants have in the health care field and is a beneficial program to those students who may be considering a career in health care.

MCLAREN PORT HURON AUXILIARY

Founded in 1906, the McLaren Port Huron Auxiliary has over 100 active members. From volunteering in various service areas throughout the hospital to special fundraising projects, the Auxiliary has a long-standing tradition of supporting McLaren Port Huron's mission. The Auxiliary provides scholarships to area students pursuing careers in health care, funding for new equipment, and maintains a Patient Focus Fund to help support smaller projects which improve the care and service individual departments offer patients and their families. Throughout the year, the Auxiliary hosts a number of fundraising events and is always looking for people to serve on its Board of Directors.

For more information about volunteer opportunities or to complete an application, visit mclaren.org/phvolunteer or contact the Volunteer Coordinator at **(810) 989-3796**.
