## Choose one Philosophy of Health Care

I believe as long as there is life there is hope. I want any and all treatments offered to me to continue my life. I am willing to accept the effects of all of treatment used. The may include life with a feeding tube, dailyas, or life on a breathing machine II am unable to breathe on my own. I am willing to live in a content vegetative shale.

- I am willing to undergo many tests, surgery, and short term treating machine treatment in an effort to continue my life. If the time should come when there is no reasonable hope of my recovery from physical deablidity or terminal lifess. I request that I be allowed to de and not be kept allow by artificial means or "heror measures." I ask that then medicine the given only to ease suffering even though this may allow my death to recover.
- I do NOT want to undergo many tests, surgary, or short-term treatment on a breathing machine in an effort to continue my life. I only want basic medical care, such as treatment for infections and minor surgaries for a condition that can be helped or to control pain. If my condition-gets worke or there is no helpe for my recovery; I ask that medicine be given to ease suffering even though this may allow my death to coout.

\_\_\_\_Conflot is my main concern. I have received the news that my condition cannot be sured. I now choose only to be leapt comfortable.
