FAST-ED STROKE SCORING TOOL		
Assessment	Findings	Score
<b>Facial Palsy</b>	Ask the patient to show their teeth or smile.	<b>Facial Palsy</b> Both sides of the face move equally or not at all: 0 One side of the face droops or is clearly asymmetric: 1
<b>Arm Weakness</b>	Ask the patient to extend both arms with palms up out in front of them, close their eyes, and hold them for a count of 10.	<b>Arm Weakness</b> Both arms remain up for >10 seconds or slowly move down equally: 0 Patient can raise arms but one arm drifts down in <10 seconds: 1 One or both arms fall rapidly, cannot be lifted, or no movement occurs at all: 2
<b>Speech Changes</b>	<b>Dysarthria</b> – Ask the patient to repeat the phrase: "The sky is blue in Michigan." <b>Expressive Aphasia</b> – Ask the patient to name three common items. <b>Receptive Aphasia</b> – Ask the patient to perform a simple command. "Ask the patient, "Show me two fingers."	<b>Speech Changes</b> <b>Dysarthria</b> – Is slurred speech present? (circle one) Yes/No <b>Expressive Aphasia</b> – Names 2 to 3 items correctly: 0 Names only 0 to 1 items correctly: 1 <b>Receptive Aphasia</b> – Normal, patient can follow the simple command: 0 Unable to follow the simple command: 1
<b>Eye Deviation</b>	Assess 4 quadrants of visual field by having patient locate your index finger. <i>(Do not perform if expressive or receptive aphasia is present)</i>	<b>Eye Deviation</b> No deviation, eyes move equally to both sides: 0 Patient has clear difficulty when looking to one side (left or right): 1 Eyes are deviated to one side and do not move to the other side: 2
<b>Denial/Neglect</b>	<b>Anosognosia</b> – Show the patient their affected arm and ask, "Do you feel weakness in this arm?" <b>Asomatognosia</b> – Show the patient affected arm and ask, "Whose arm is this?"	<b>Denial/Neglect</b> <b>Anosognosia</b> – Patient recognizes the weakness in their weak arm: 0 Patient does NOT recognize the weakness in their arm: 1 <b>Asomatognosia</b> – Patient recognizes their weak arm: 0 Patient does NOT recognize their weak arm: 1
		<b>TOTAL SCORE</b> _____ A score greater than or equal to 4 indicates a high likelihood of LVO stroke.
