McLaren MACONS CONSENT FOR OPERATION / PROCEDURE / ANESTHESIA BLOOD TRANSFUSION / TREATMENT
I (patient or guardian), hereby authorize Dr. \_\_\_\_\_
or his/her designee, and such other physicians, medical residents, physicians-in-training, or other persons as are needed to assist him/her to perform:
Operation / Procedure/ Anesthesia/ Blood Transfusion / Treatment: \_\_\_\_\_
I acknowledge that my physician/ anesthesiologist has explained to my satisfaction, in terms I understand, the reason for, the general nature of, the anticipated benefits of, the possible significant risks and complications of, and the significant alternatives to (including not performing), the proposed operation/ procedure/ treatment/ anesthesia.
Risks: The doctor has discussed the reasonably expected risks of the procedure, and I have been given enough information to permit informed consent. The more common risks include infection, bleeding (including severe blood loss requiring blood transfusions), nerve injury, blood clots, heart attack, allergic reactions, brain damage, liver damage, damage to the vocal cords, respiratory problems, damage to the teeth including temporary or permanent dental fixtures/ bonding, headache, minor pain and discomfort, blood pressure problems, and pneumonia. These are not all the possible risks associated with the procedure, but these and other risks can be serious and possibly fatal.
Some significant and substantial risks of this particular operation or procedure include: \_\_\_\_\_
Additional Procedure(s) I understand my doctor(s) may find something they did not expect at the time of the surgery or procedure. I authorize him/her to perform such treatments for she deems necessary.
Tissue Disposal: I consent to the examination by a pathologist, and disposal by hospital authorities of any tissue or body part that may be removed.
Photography: I consent to the taking and publication of any photographs in the course of the procedure for the purposes of advancing medical education and / or for permanent documentation in the medical record.
Blood Transfusions: I understand that in the event of severe blood loss, or decreased blood count, or a clotting problem, I may require a blood transfusion. I also understand that there are potential risks from blood transfusions, though rare. Some of these include transfusion reactions, hepatitis, and ABO (Acquired Immune Deficiency Syndrome). I understand that the failure to transfuse when needed, could potentially cause additional medical problems, complicate existing ones, or lead to serious injury or death. The use of blood products has been explained to me, and I have had an opportunity to ask questions.
\_\_\_\_\_(Initials) I consent to receive blood or blood products \_\_\_\_\_(Initials) I DO NOT consent to receive blood or blood products.
NO GUARANTEE: I understand that the practice of medicine is not an exact science, and acknowledge that no guarantees or assurances have been made as to the results of the operation or procedure, and I WANT NOT CURE THE CONDITION.
PATIENT CONSENT: I have read and fully understand the consent form. I fully understand everything the physician has explained to me. I understand that I can withdraw this consent at any time before the beginning of the procedural operation.

Printed Name: \_\_\_\_\_ Date: \_\_\_\_\_ Time: \_\_\_\_\_
Physician Representative - Relationship: \_\_\_\_\_

PHYSICIAN DECLARATION: I have explained to the patient / patient's representative the procedure / operation and the risks, benefits, complications and alternatives (including the probability or likely consequences if no treatment is pursued). I have answered all of the patient's questions, and to the best of my knowledge, I believe the patient has been adequately informed.
