Poster:
Misc Info:

Breast Density
Breast cancer screening

The American College of Radiology, the Society of Breast Imaging, and the National Comprehensive Cancer Network (NCCN), recommend that all women have yearly mammograms beginning at age 40. Women at high risk may benefit from starting earlier.

Resources:
For more information on breast cancer screening, visit MammographySavesLives.org, EndTheConfusion.org, or RadiologyInfo.org.

**Not sure if you have dense breasts?
Why does it matter?**
Ask your doctor which breast cancer screening options are right for you.

... one of them may be yours
