WELCOME TO McLAREN BAY REGION

Congratulations on your pregnancy. What an exciting time in your life. We also know that it can be a little stressful at times as you anticipate becoming parents, whether for the first time or for a repeat performance. Each experience is unique and it is our goal that it be the most positive experience possible for you.

McLaren's Family BirthPlace is pleased to be a part of your pregnancy to parenting journey. Enclosed in this packet is information or links to information as you embark on this life changing experience, including various prenatal education offerings for moms, coaches, dads, children and even grandparents!

At our Family BirthPlace, you'll be supported by an experienced staff of compassionate nurses and other health care providers. We've adopted policies to ensure the best start possible for you and your baby, such as uninterrupted skin to skin care (SSC) during the first hour after birth for healthy moms and newborns. SSC promotes bonding, temperature regulation and eases baby's transition to life outside the womb. This will also encourage breastfeeding should you choose to breastfeed your baby. Visitors are restricted until after the first two hours postpartum to allow mom and her coach to enjoy those early "golden hours" with baby.

Remember, as new parents you'll be on "Baby Time" which means you'll want to sleep when the baby sleeps. To avoid being disturbed when sleep finally comes your way, consider placing the provided "Quiet In" with your baby, so you become familiar with your baby's unique sounds, including early feeding cues.

Safety is priority at McLaren. We have a state-of-the-art infant security system as well as a locked department to assure the safety of our precious babies.

We are also here to support you after your baby is born. Our Family BirthPlace has Certified Lactation Counselors available for breastfeeding support. The "Going Home" booklet, a reference guide for new families, will be included in the blue envelope provided at discharge, along with other important information. You will also receive a follow up call after you've had some time to adjust to your new baby at home.

Stay informed by asking questions. Your OB health care provider, childbirth educator and hospital staff are happy to answer any questions you have.

Enjoy your journey!
