Alternative Site Marking

Indicate (Shade) an diagnosis with initials or "Yes" at approximate incision site.

The Alternative site marking shall be used when:

- The patient refused site marking, Risk, Benefits, and Alternatives of site marking explained to the patient by the physician performing the procedure.
- The procedure is one in which site marking is technically or anatomically impossible or impractical to mark the site, including but not limited to mucosal surfaces, perineum, or premature infants.

Procedure _____

Physician Signature _____ Date _____ Time _____

Patient Signature _____ Date _____ Time _____

or Authorized Representative _____ Date _____ Time _____

Reason for signature other than patient and relationship _____
