Poster:
Misc Info: 11x17 Color DS Folded 80# Offset

**KARMANOS CANCER INSTITUTE
AT McLAREN BAY REGION**

As part of the Karmanos Cancer Network, anchored by the Barbara Ann Karmanos Cancer Institute in Detroit, a National Cancer Institute-Designated Comprehensive Cancer Center, our patients have access to more than 290 promising new cancer-specific treatments often not found at other hospitals or health organizations. Together, we give your patients their best chance.

CLINICAL TRIALS

Karmanos Cancer Institute has hundreds of scientific investigation programs and clinical trials available, including those for prostate, bladder, and uveal cancers. Patients will be given the option of participating in a clinical trial. A clinical trial specialist and physician performs a screening process to determine if the patient can take part in a specific trial. To learn more, visit karmanos.org/clinicaltrials.

GENETIC TESTING

Cancer genetic counseling services help the patient and their family learn about the impact of their personal and family history has on their chance of developing cancer, and the risk other family members may have in getting cancer. Genetic testing also helps the patient understand prevention, early detection, and treatment options.
