# EMS FEEDBACK REQUEST

WORKING TOGETHER  
TO IMPROVE PATIENT CARE

Scan the code above or visit  
[mclaren.org/flintEMSFeedback](https://mclaren.org/flintEMSFeedback)  
to request information.

## Partnering to enhance care

A streamlined process is now in place for you to request information regarding your patients' outcomes. We understand this feedback will not only elevate the care patients receive at our facility but will also benefit your practice as a pre-hospital provider.

Please provide your agency email or EMS coordinator's email for requesting patient follow-up. Your message will be sent directly to our care teams in ER, trauma or neurostroke.

## QUESTIONS?
